Warm tips: Currently,the robot only supports two voice orders:turn on /turn off for Alexa&Google assistant.But since T 8 is a smart robot,after you ask Alexa to turn on the robot, the robot will automatically clean the house and go back to recharge after finishing ,during this process, you don't have to further operated.

5.Create a home group or add more members to control the

robot

Create a home and name it, the next step to add members to this "Home", the all home members can control the robot in the HonySmart app on their phones.
